

Greetings Area Veterinarians!!!

The doctors and staff at **Fish Creek 24 Hour Pet Hospital** would like to take the opportunity to introduce ourselves. Our clinic has been open since Dec 27th, 2005 and we have an experienced doctor on staff 24 hours a day, 7 days a week. We are available for your day emergencies or for overnight care of your hospitalized patients. We love to treat your clients as you would like to have them treated. The package enclosed includes referral forms, health record stickers and magnets for your convenience.

Our in-house diagnostic laboratory includes Procyte CBC, chemistry (including T4 and cholesterol!) coagulation panel and electrolytes. We are equipped with digital radiography that will allow for your clients to take a copy of their x-rays with them for your review. Radiographs can also be forwarded to your clinic via email if you would prefer. We have capabilities for ultrasound, oxygen therapy, IV fluids, blood transfusions, various monitoring equipment and an incubator for those patients in need of warming.

Our goal as an emergency clinic would be to provide your client's with the local convenience of a 24 hour facility, but it is our mandate to ensure that the care initiated at your facility is continued. With the referral forms you will note that there is a section on the bottom that will allow you to request contact if treatment changes occur or if you want to see the animal back first thing in the morning. Do not hesitate to call if you have any questions, comments, suggestions, or if you need additional supplies. You can visit <http://fishcreekvets.com/referrals.php> for downloadable forms and more information as it comes available.

Please feel free to come by for a tour of our facilities and meet our staff!!!!

From the owners:

Natasha Mutlow, WCVN 2002

Mark Norman, WCVN 1999

Katie Van Sluys, WCVN 1999

Stephanie Ball, WCVN 2000
